

Danny Lennon Apprentice Fitter & Turner

“I feel confident about my prospects because I know other apprentices who have gone on with SKILLED and are very satisfied with their careers.”

Located on-site at Moorabbin, Victoria, Danny Lennon joined SKILLED two and a half years ago and began his trades apprenticeship.

“At the moment I am making parts for projects on the production floor but my tasks can vary from fabrication to maintenance or installation work,” says Danny. “As an apprentice I have been able to learn different parts of the trade from all different tradespeople, by moving from factory to factory.”

SKILLED have supported Danny throughout his apprenticeship, which has enabled him to receive constant feedback regarding his progress. “Danny has shown an excellent work ethic and a strong willingness to learn new aspects of his trade. This is further supported by excellent trade school results and client

feedback,” says Phil Grant, Danny’s SKILLED Supervisor.

“I like the satisfaction I get from learning, whether it be something I learn off the other guys at work, or something I learn by myself.”
