

Joseph Zahra Boilermaker

“I especially like SKILLED’s attitude to safety, they are very serious about it which is how it should be - no one wants to get injured at work.”

Joseph Zahra, is a SKILLED boilermaker who has spent four and a half years with the company.

“I love variety in my work and that is what SKILLED gives me,” says Joseph. “In my time with SKILLED I have had the chance to work in a number of different places with many of SKILLED’s clients.”

Joseph gained his qualification at Granville TAFE in Sydney’s west while completing his apprenticeship. In the latter half of 2003, he has spent much of his time with Kelair Pumps, located near Mount Druitt in New South Wales.

An Australian company, Kelair Pumps specialises in pumps for the mining, chemical, pharmaceutical, petrochemical, food and beverage industries.

“Apart from the variety, the other great thing about SKILLED is the way they support you,” says Joseph. “The guys in the branch at Wetherill Park are very attentive – if there is any problem, like safety glasses not being available on-site, I just SMS my account manager and he gets on to it immediately.”
